Information on the Notes

AB Svensk Exportkredit (the "Issuer") has issued Accelerated Return Notes ("Notes") linked to the S&P MidCap 400 Index (the "Index"). The Notes were priced at \$10 each and mature on June 4, 2009.

As more fully set forth in the Prospectus Supplement, each \$10 principal amount of the Notes will be deemed a "Unit" for purposes of trading and transfer. There will be no payments or redemptions prior to the maturity date.

The Notes provide full exposure to any downside movement in the Index and triple exposure to any upside movement in the Index, subject to a maximum payment at maturity of \$12.01 per Note.

At maturity:

(1) If the Ending Value is less than or equal to the Starting Value, the investor receives:

$$\$10 \times (\text{Ending Value} / \text{Starting Value})$$

(2) If the Ending Value is greater than the Starting Value, the investor will receive:

$$\$10 + [\$30 \times ((\text{Ending Value} - \text{Starting Value}) / \text{Starting Value})]$$

Subject to a maximum total payment at maturity of \$12.01 per Note.

The Starting Value for the Index is 788.87. The Ending Index Value will be determined near the maturity date.

Please see the prospectus for the Notes for more details regarding the calculations.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.
