Market Information Circular

Circular number:	2006-05	**Contact**:	K. J. Koenke
Date:	January 13, 2006	**Telephone**:	(877) 473-9989

The purpose of this Market Information Circular (MIC) is to advise you of a mandatory Click Trade upgrade. On February 6th the ISE will be upgrading its trading system to the R6 platform.

This upgrade is a "dual boot" version, meaning you can download the R6 compatible Click Trade at any time prior to the February 6th cutover. The R5 version of Click will continue to run until the 6th.

The upgrade will be transparent to Click Users. The purpose of the upgrade is to insure that all Click Users are compatible with the R6 trading platform as of the cutover date, February 6th.

Installing the CLICK Trade upgrade

To install the CLICK Trade upgrade:

1. Click the **Member Login** quick link on ISE Web site, www.iseoptions.com.

2. Type `click` in the **Name** and **Password** fields.

3. Click **Login**.

   The CLICK page is displayed.

4. From the Software Downloads menu, click the **CLICK R6 5.7_1.4** link.

   The link to the software is displayed.

5. Click the link and select **Save** to download the file.

6. Double-click on the file to install the software.

Further assistance

If you have difficulty logging on to the new software, or experience any software performance degradation, please contact ISE Market Operations at (877) 473-9989.

Any representative on the desk will be able to assist you.
