Information on the Notes

Citigroup Funding Inc. (the "Issuer") has issued Strategic Market Access Notes ("Notes") based upon the Citi U.S. Equity Model Index (the "Index"). The Notes were priced at \$10 each and mature on May 25, 2011.

Beginning in September 2008 and on any trading day during the first five calendar days of each month, each of which are referred to as a Monthly Exchange Period, the holders of the Notes may exchange the Notes for the Net Investment Value of the Notes minus an administrative cost.

The Net Investment Value for any Monthly Exchange Period will be determined on the trading day following the last calendar day of such Monthly Exchange Period, which is referred to as the Exchange Valuation Date. The administrative fee will be 0.25% of the Net Investment Value. A minimum of 1,000 Notes must be redeemed at one time for the redemption request to be accepted.

The Initial Index Level is 196.26. The Ending Index Level will be the closing level of the Index on the current trading day.

The Index Return Percentage will be computed as follows:

$$\frac{\text{Ending Index Level}}{\text{Initial Index Level}}$$

The Net Investment Value was \$9.725 on the Pricing Date. Thereafter, for each \$10 Note, NIV will be \$9.725 x Index Return Percentage.

While there are no ongoing fees charged on the Notes, the Index will be subject to an Index Adjustment Factor of 1% per annum.

Please see the prospectus for the Notes for more details regarding the calculations.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.
