Index-Linked Notes	Symbol	CUSIP Number
Morgan Stanley Protected Absolute Return Barrier Notes Based on the Value of the S&P 500 Index	SLZ	617480421

Information on the Notes

Morgan Stanley (the "Issuer") has issued Protected Absolute Return Barrier Notes ("Notes") based on the value of the S&P 500 Index (the "Index"). The Notes were priced at \$10 each and mature on December 20, 2009.

Unlike ordinary debt securities, the Notes do not pay interest. Instead, the Notes will pay at maturity the \$10 stated principal amount of each Note plus a Supplemental Redemption Amount that will be paid only if the value of the Index remains within the Index Range specified below at all times throughout the term of the Notes.

The supplemental redemption amount will equal:

- If at all times during the observation period the value of the Index is within the Index Range:

\$10 x Absolute Index Return

- If at any time on any day during the observation period the value of the Index is outside the Index Range:

\$0

The Index Range includes any value of the Index that is:

- (i) greater than or equal to: 1,041.22 and;
- (ii) less than or equal to: 1,594.78

The Absolute Index Return will equal:

$$\frac{\text{Final Index Value} - \text{Initial Index Value}}{\text{Initial Index Value}}$$

Please see the prospectus for the Notes for more details regarding the calculations.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.
