Market Information Circular

Circular number: 2011-12 **Contact:** Market Operations
Date: 04/06/2011 **Telephone:** (877)473-9989

The purpose of this Market Information Circular (MIC) is to inform members of an optional PrecISE Trade Upgrade. The new version, 4.3.0 of Precise is now available on the ISE website after the close on Wednesday, April 6th and will go live on Monday, April 11th. PrecISE users must have Microsoft .NET Framework version 3.5 installed on their desktops in order to use PrecISE 4.3.0

Subject: PrecISE Trade 4.3 Enhancements

Opening Only Orders - Enter orders pre-open to participate in the opening rotation and have unexecuted quantity automatically cancelled after the rotation.

Good Til Date Orders - Submit orders that will rest on the ISE until after market close on date specified.

Install Instructions

Smart-Updater users will be upgraded to version 4.3.0 starting Monday, April 11th. No action is required.
Stand-Alone users should follow the instructions below:

- Remove all previous versions of PrecISE from your computer.
- Go to <http://www.ise.com/login>. Type "Precise" in the name and password fields.
- The new version number of PrecISE is 4.3.0

For Vista and Windows 7 users:

If this is a smart-updater, admin user must start Precise for the first time to upgrade precise. ANY FUTURE UPDATES REQUIRE ADMIN USER TO RUN PRECISE TO UPGRADE IT FIRST.

To verify the current Microsoft .NET version installed:

1. If using a 64 bit machine, C:\WINDOWS\microsoft.net\Framework64\v3.5
2. If using a 32 bit machine, C:\WINDOWS\microsoft.net\Framework\v3.5

If there is no folder named v3.5 it will be necessary to upgrade.
