The purpose of this Market Information Circular (MIC) is to announce the September Option Markets Rebalance

**Subject: Options – September Option Markets Rebalance**

Effective for Monday, September 26, 2011, the ISE will re-balance sixty-five (65) products in its Primary and Second Markets. This re-balance is necessary to ensure that products are trading in the appropriate ISE options market, based on average daily volume. ISE will continue to re-balance its options markets every three months.

Please note the following change to the rebalance process: [GTC orders associated with these products will NOT be deleted after the close on Friday, September 23. All orders will remain in the system and available for trading on Monday the 26<sup>th</sup>. Products will remain in the same partition as before.](#)

Those products that will move from one market to the other will trade subject to the quoting rules and fee structure of their “new” market:

- The 60% quoting requirement on CMMs will be applied to products moving to the Primary Market, but will no longer apply to products moving to the Second Market.
- As of June 1, 2011, all transactions executed in the Second Market will be assessed a Payment for Order Flow (PFOF) fee same as with First Market transactions. In addition fees for all products executed in the Second Market will be lowered from \$0.05 per contract to \$0.00 per contract. Please refer to the ISE Fee Schedule<sup>[1]</sup> for

more details on the specific fees associated with each ISE market.

- Beginning Monday, September 26, 2011, CMMs with access to the Primary Market only will not be permitted to quote products moving to the Second Market. CMMs with access to the Second Market only will not be permitted to quote products moving to the Primary Market. Please contact Market Operations (800-518-7654) if you would like to gain access to an additional ISE Market.

A list of all products impacted by the re-balance, including new bin, is available at:
