

More and more firms are choosing The NASDAQ Stock Market as their preferred trading platform for its reliability, immediacy and efficiency in trade execution. The NASDAQ Stock Market continues to lead in U.S. Equity volume thanks to the top firms putting the highest levels of liquidity into the market for both NASDAQ- and NYSE-listed securities. Choosing NASDAQ as your trading venue ensures access to this concentration of liquidity.

Recent enhancements to INET technology have reduced latency for trading on NASDAQ by more than 40% with higher reliability and capacity. Visit the [INET Technology](#) page on the NASDAQ OMX Trader website to find out more about low latency trading on NASDAQ.

Liquidity provider is defined as the market participant whose quote or order is accessed via NASDAQ. This list includes consenting market participants. The above ranking is provided by NASDAQ's Economic Research Department. For NASDAQ-listed securities, liquidity provider ranking is calculated based on shares of NASDAQ-listed securities executed on NASDAQ. All market participants with at least one registered market maker ID and with active market maker positions in at least 350 NASDAQ- or other exchange-listed issues are ranked by volume, excluding ECNs. For NYSE-listed securities, liquidity provider ranking is calculated based on shares of NYSE-listed securities executed on NASDAQ. All market participants are ranked by volume.
