Liquidity provider is defined as the market participant whose quote or order is accessed via NASDAQ. This list includes consenting market participants. The above ranking is provided by NASDAQ's Economic Research Department. For NASDAQ-listed securities, liquidity provider ranking is calculated based on shares of NASDAQ-listed securities executed on NASDAQ. All market participants with at least one registered market maker ID and with active market maker positions in at least 350 NASDAQ- or other exchange-listed issues are ranked by volume, excluding ECNs. For NYSE-listed securities, liquidity provider ranking is calculated based on shares of NYSE-listed securities executed on NASDAQ. All market participants are ranked by volume.
