Information on the Notes

Merrill Lynch & Co., Inc. (the "Issuer") has issued Accelerated Return Notes ("Notes") linked to the MSCI EAFE Index (the "Index"). The Notes were priced at \$10 each and mature on May 4, 2009.

As more fully set forth in the Prospectus Supplement, each \$10 principal amount of the securities will be deemed a "Unit" for purposes of trading and transfer. There will be no payments or redemptions prior to the maturity date.

The Notes provide full exposure to any downside movement in the Index and triple exposure to any upside movement in the Index, subject to a maximum payment at maturity of \$12.124 per unit.

At maturity, investors in the Notes will receive:

- (1) If the Ending Value is less than or equal to the Starting Value:

$$\$10 \times (\text{Ending Value} / \text{Starting Value})$$

- (2) If the Ending Value is greater than the Starting Value:

$$\$10 + \$30 \times ((\text{Ending Value} - \text{Starting Value}) / \text{Starting Value})$$

Subject to a maximum total payment at maturity of \$12.124 per unit.

The Starting Value for the Index equals: 2,086.12. The Ending Value will be calculated near the maturity date. Please see the prospectus for the Notes for more details.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other

things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.

The Trustee for the securities is The Bank of New York.
