Thomson Reuters/Jefferies CRB Wildcatters Exploration & Production Equity Index Fund

WCAT 00162Q809

Background Information on the Fund

The ALPS ETF Trust (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"), consisting of several investment portfolios. This circular relates only to the Thomson Reuters/Jefferies CRB Wildcatters Exploration & Production Equity Index Fund (the "Fund"). The shares of the Fund are referred to herein as "Shares." ALPS Advisors, Inc. (the "Adviser") is the investment adviser to the Fund. Arrow Investment Advisors, LLC is the investment sub-adviser (the "Sub-Adviser") for the Funds.

The Fund seeks investment results that replicate as closely as possible, before fees and expenses, the performance of the Thomson Reuters/Jefferies CRB Wildcatters Energy E&P Equity Index (the "Underlying Index"). The Fund's investment objective is not fundamental and may be changed by the Board of Trustees without shareholder approval.

The Fund, using a low cost "passive" or "indexing" investment approach, seeks to replicate, before fees and expenses, the performance of the Underlying Index. The Fund will normally invest at least 80% of its total assets in the equity securities that comprise the Underlying Index and depositary receipts based on the securities in the Underlying Index. The Fund has adopted a policy that requires the Fund to provide shareholders with at least 60 days notice prior to any material change in this policy. The Board of Trustees of the Trust may change the Fund's investment strategy and other policies without shareholder approval, except as otherwise indicated.

The Sub-Adviser seeks a correlation over time of 0.95 or better between the Fund's performance, before fees and expenses, and the performance of the Underlying Index. A figure of 1.00 would represent perfect correlation.

The Fund generally will invest in all of the securities that comprise the Underlying Index in proportion to their weightings in the Underlying Index. However, under

various circumstances, it may not be possible or practicable to purchase all of the securities in the Underlying Index in those weightings. In those circumstances, the Fund may purchase a sample of the securities in the Underlying Index in proportions expected by the Sub-Adviser to replicate generally the performance of the Underlying Index as a whole. There may also be instances in which the Sub-Adviser may choose to overweight another security in the Underlying Index, purchase (or sell) securities not in the Underlying Index which the Sub-Adviser believes are appropriate to substitute for one or more Underlying Index components or utilize various combinations of other available investment techniques, in seeking to replicate, before fees and expenses, the performance of the Underlying Index. In addition, from time to time securities are added to or removed from the Underlying Index. The Fund may sell securities that are represented in the Underlying Index or purchase securities that are not yet represented in the Underlying Index in anticipation of their removal from or addition to the Underlying Index.

The Underlying Index is a modified capitalization-weighted, float-adjusted, rules-based index designed to track the overall performance of a universe of listed U.S. and Canadian small- and mid-capitalization companies engaged in the exploration and production (i.e., extraction) of oil and natural gas.

Each Underlying Index component derives more than 75% of its annual revenues from the exploration and production of oil and natural gas and is selected from a universe of approximately 300 U.S. and Canadian companies based on the following criteria:

1. The security is listed on a regulated exchange that provides a "last closing price" (e.g., National Stock Market stocks must be "reported securities" under Rule 11Aa3-1 under the Securities Exchange Act of 1934, as amended).
2. Each company must have a minimum market capitalization of \$200 million and a minimum free float (i.e., shares of a public company that are not held by corporate insiders that are freely tradable in the public market or markets on which a company's securities are listed) of \$150 million on the last business day of the month prior to the rebalancing month to be admitted to the Underlying Index. Companies representing at least 95% of the total weight of the Underlying Index must have an average daily turnover for the previous ninety days of more than \$1 million. A company is deleted from the Underlying Index if its market capitalization falls below \$150 million and/or its free float falls below \$100 million and/or its average daily turnover for the previous ninety days falls below \$800,000 on last business day of the second month of the calendar quarter.
3. Each company must have a market capitalization of less than \$2 billion and minimum free float of less than \$2 billion on the last business day of the month prior to the rebalancing month to be admitted to the Underlying Index. A company is deleted from the Underlying Index if its market capitalization exceeds \$2.5 billion on the last business day of the second month of the calendar quarter.

Individual companies are weighted based on a capitalization weighting methodology, adjusted for free float. The weights of individual stocks are capped at 25% and the excess weight is redistributed proportionately to the remaining Underlying Index constituents. In addition, the aggregate weight of companies with weights greater than 5% is capped at 45%. Company weights may be further modified, if required, to ensure compliance with the diversification requirements of Subchapter M of the

Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), and to account for other considerations set forth in the official rule book.

As of December 9, 2009, the Underlying Index included 55 securities of companies with a market capitalization range of between approximately \$200 million and \$2.4 billion. As of that date, approximately 68% of the weight of the Underlying Index reflected companies domiciled in the United States. These values can change over time within the constraints of the existing rulebook for the Underlying Index, and the rulebook can be modified by the Index Committee for the Underlying Index.

The Underlying Index is rebalanced quarterly on the third Friday of the last month of each calendar quarter. Share weights of the constituents remain constant between quarters, except in the event of certain types of corporate actions, including but not limited to stock splits and reverse stock splits. Share weights of the Underlying Index are not adjusted between rebalancing dates for shares issued or shares repurchased.

Please see the Fund's prospectus for additional information concerning the Fund and its investment objectives.

As described more fully in the Trust's prospectus and Statement of Additional Information, the Fund will issue and redeem Shares on a continuous basis at their net asset value ("NAV") only in large blocks of 50,000 Shares (each, a "Creation Unit"). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Income dividends, if any, are distributed to shareholders quarterly. Net capital gains are distributed at least annually.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Fund describes the various fees and expenses for the Fund's Shares. For a more complete description of the Fund and the underlying Index, visit the Fund's website at www.alpsetfs.com.

Purchases and Redemptions in Creation Unit Size

NASDAQ members and BX members are hereby informed that procedures for purchases and redemptions of Shares in Creation Unit Size are described in the

Trust's prospectus and SAI, and that Shares are not individually redeemable but are redeemable only in Creation Unit Size aggregations or multiples thereof.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing the Fund's performance to not match the performance of the underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, sector risk and foreign investment risk.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on NASDAQ is on a UTP basis and is subject to NASDAQ equity trading rules. Trading of the Shares on BX is on a UTP basis and is subject to BX equity trading rules.

Trading Hours

The values of the index underlying the Shares are disseminated to data vendors every 15 seconds. The Shares will trade on NASDAQ between 7:00 a.m. and 8:00 p.m. ET. The Shares will trade on BX between 8:00 a.m. and 7:00 p.m. ET. For trading during Nasdaq's and BX's Pre-Market and Post-Market Sessions, market participants should note that additional risks may exist with respect to trading the Fund during these sessions, when the underlying index's values, intraday indicative value, or similar value may not be disseminated or calculated.

Dissemination of Fund Data

The Consolidated Tape Association will disseminate real time trade and quote information for the Funds to Tape B.

Fund Name	Listing Market	Trading Symbol	IOPV Symbol	NAV Symbol
Thomson Reuters / Jefferies CRB Wildcatters Exploration & Production Equity ETF	NYSE Arca	WCAT	WCAT.IV	WCAT.NV

Suitability

Trading in the Shares on NASDAQ will be subject to the provisions of NASDAQ Rule 2310. Trading in the Shares on BX will be subject to the provisions of BX Equity Rule 2310. Members recommending transactions in the Shares to customers should make a determination that the recommendation is suitable for the customer. In addition, members must possess sufficient information to satisfy the "know your customer" obligation that is embedded in both the NASDAQ Conduct Rules and the BX Conduct Rules.

NASDAQ and BX members also should review NASD Notice to Members 03-71 for guidance on trading these products. The Notice reminds members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

Trading Halts

NASDAQ will halt trading in the Shares of a Fund in accordance with NASDAQ Rule 4120. BX will halt trading in the Shares of a Fund in accordance with BX Equity Rule 4120. The grounds for a halt under these rules include a halt by the primary market because the intraday indicative value of the Fund, the value of its underlying index, or a similar value are not being disseminated as required, or a halt for other regulatory reasons. In addition, NASDAQ and BX will also stop trading the Shares of a Fund if the primary market de-lists the Fund.

Delivery of a Prospectus

NASDAQ and BX members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund.

Prospectuses may be obtained through the Fund's website. The prospectus for the Funds does not contain all of the information set forth in the Funds' registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC"). For further information about the Fund, please refer to the registration statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, NASDAQ Rules 4420 and 4421, and BX Equity Rules 4420 and 4421, require that NASDAQ members and BX members, respectively, provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Trust for the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, NASDAQ members and BX members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by a NASDAQ member or a BX member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of the Shares of the Fund has been prepared by the Trust and is available from your broker. It is recommended that you obtain and review such circular before purchasing Shares of the Fund. In addition, upon request you may obtain from your broker a prospectus for Shares of the Fund."

A NASDAQ member or a BX member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to NASDAQ members and BX members under this rule.

Upon request of a customer, NASDAQ members and BX members also shall provide a copy of the prospectus.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the "Act") regarding trading in the above mentioned exchange-traded Fund.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Customer Confirmations for Creation or Redemption of Fund Shares (SEC Rule 10b-10)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The

composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
- 3) Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

SEC Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

Section 11(d)(1); SEC Rules 11d1-1 and 11d1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This

relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the Shares of the Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of the Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

SEC Rule 15c1-5 and 15c1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)
